

Financial benefits from open basic data

Once the initiative has been completely phased in, in 2020, there are expected savings for the public sector of about DKK 250 million per year (35 million euro / 43 million USD) as a result of lower administration costs.

Table 1. Net returns for the public sector

Net effect – DKK million	2013	2014	2015	2016	2017	2018	2019	2020
Ministries	-108	-81	-50	-26	3	9	29	42
Municipalities	-24	24	79	143	165	169	174	175
Regions	1	11	23	33	43	43	43	43
Total effect for the public sector	-131	-45	52	149	211	221	246	260
